NO GROUND IN MEXICO NEUTRAL

Both the Rival Armies Near Leon Are Reported in a Serious Situation.

PRESIDENT Wilson's note to the Mexican leaders has already resulted in the forming of tentative plans for a basis of understanding be tween the Villistas and the Carrancis-The calling of a truce between the two factions was taken up Friday E. Arradondo, the Carranza representative at Washington, has been asked, at

aid of the former "A. B. C." delegates, it is pointed out that this move would, in all probability, meet with the complete approval of president Wilson, indications received here are that the message has been favorably received by both leaders and for this reason it is believed that a common ground of un-derstanding can soon be arrived at.

Both factions are expecting a decisive battle south of Leon in a very short time. It is pointed out that, according to all reports, both Villa's and Obveron's lines of communication are cut, the ane from Leon and the other from iraquate. Obveron still holds his trenches at Trinidad. The Villa reports have not mentioned the capture of any of these positions or the capture of artillers at this point. Wills, therefore, is between two fires, from Trinidad and the south, as is Obveron, from Villa at Shao and Angeles in the trenches south of Leon. In effect the Villa movement has caused both sides to be flanked. Recent arrivals from the south estimate Villa's force at 15,000 and Obvegon's at 20,000, thus making a complete circling movement by Villa on Trinidad very difficult. Decisive Buttle Expected.

Douglas, Ariz, June 5.—Warning &sued to Villa commanders Trajillo and
Urbulelo by Col. C. M. O'Connor, cointhat an attack on Agua Prieta would
endanger American lives and property
and should therefore be avoided, has
been followed by a heavy increase in
the United States border patrol. Additional troops of the Ninth cavalry
took up stations today east and west
of here.

Forces under Truillo, Urbalejo and
Sosa are gradually closing in, to invest
Agua Prieta. The Carranta garrison
is strengthening the fortifications.
Gen. P. Ellas Calles, Carranta commander at Agua Prieta, declined to
comment on president Wilson's note
to the Mexican leaders until the statement of Gen Carranta was made public.

most likely to receive recognition once the Constitutionalists return to Mexico City.

It is understood the roply will point out a steady progress by the Constitutionalists, indicating an early victory over Villa. Also Gen. Carranza will point out that American recognition would greatly e pedite peace in Mexico.

What Note Will Say.

Other points in the reply will be first, that Gen. Carranza appreciates the kindly sentiments for the Mexican people as expressed by president Wilson; second, that president Wilson has always been reparded as the champion of the downtrodden people, and those struggillag for democracy in Mexico look to his friendship for aid; third, that the Constitutionalists had already undertaken pacification for uniting sil factions, but that their efforts had failed because of the ambitions of Villa, who was backed by the Clentifico party, and fourth, that Gen. Carranza considers the outlook bright because he is convinced he will be able Soon to reocupy Mexico City and reopen traffic. confining Villa to restricted sections of the north until the country is rid of him.

\$9,625,946, BREAKING RECORDS

Only Once, in June 1914, Have the Bank Clearings Gone Above \$9,000,000 Mark; May Showing Is the Result of Gradual and Persistent Business Growth of the City During the Period of Usual Depression.

BANK clearings for El Paso during the month of May reached \$9, 625,946, their high water mark, by \$400,000 in the history of the city. It was while compiling a statement Saturday morning of the fiscal condition of El Paso industrially, financially and otherwise for the Babson Statistical organization, that secretary Fraser of the chamber of commerce had occasion to telephone manager H. V. Watson of the local clearing house and discovered this fact. When asked if these figures involved any unusual financial condition during the month of May, Mr. Watson exhibited the weekly clearings of that month, which, singularly enough, total nearly the same amount each week, about \$2,350,000.

Acrording to Mr. Watson, in discussion of these ligures, there is no reason for this huge total during May except the steadily increasing growth of local beautiful to the steadily increasing the steadily increasing the steadily increasing the s

GERMANS MAKE LITTLE

PROGRESS NEAR PRZEMYSL

The Austro-German forces have pushed their sallent as far as Tuchlia, which is some distance northeast of Praemysl. Notwithstanding the exactuation of this fartness, the Russians have maintained an unbroken fighting front on both sides of the railroad to Lomberg. Thus far the Austrians and Germans apparently have made little progress since the taking of Praemysl. British and Prench reports indicate hard fighting on the weatern front without much progress for either side. The Belgian frontier has again been closed to traffic. This tends to confirm the reports that the Germans are moving heavy reinforcements to their positions along the Year canal.

RUSSIA IS SUFFERING SHORTAGE OF MUNITIONS

Andriage of munification that Russia's recent reverses. like those of England, are traceable to lack of sufficient munificates, was confirmed by a "etrograd dispatch Priday night to the Morning Post, as follows:

"The loss of Przemysi dosa not dzcide the Gallelan campaign, but it emphasizes the necessity for a greater supply of munificates and equipment, which the Russian industries are unable single handed to provide. Until these supplies can reach us it will perforce be necessary for the Russians to assume the defensive.
